### Technical Requirements

Tech requirements are small...

- One wireless handheld high-quality microphone on a straight stand
- One platform at least 8' x 8' and high enough that I can be seen from the knees up by all
- Stairs into the audience
- One backless stool or a banquet tray stand (without tray or drape)
- One folding chair
- Lighting so that I can be clearly seen by all
- The audience NOT distanced from the stage by a dance floor

If you want to get fancier, you may add...

- A follow spot with operator, and/or
- A CD player with operator for music cues.

While the CD player and the follow spot do add to the overall show, they are not in any way essential.
